Dear Ms Rigby,

**Proposed telecoms site at land adjacent to Mickleton Road**  
**[Approximate Location: https://w3w.co/stroke.cringes.pillow](https://w3w.co/stroke.cringes.pillow)**

Atlas specialises in the acquisition, design and operation of mobile phone sites in the UK working closely with Network Operators. We pride ourselves in developing fair and friendly relationships with our landlords. Please find attached a brief overview of our company.

We are currently liaising with the Connected Warwickshire team at Warwickshire County Council to improve mobile phone connectivity across the county and have identified Ilmington as an area that could benefit from improved coverage. Discussions have taken place with Ilmington Parish Council, who have given their support for us to explore potential site locations in and around the village.

We have identified your land as a possible option suitable for a new mobile phone tower in an 8m x 8m compound.

Atlas is keen to agree to a location that is acceptable to yourself and are offering to pay an annual rental of £2500 per annum, which is above the normal market rent for new sites of this type. We will cover your associated professional fees and provide an incentive for early completion of the agreement should your location be selected and following a successful planning outcome.

We hope this is of interest. It would be great to hear from you to discuss the matter further.

Yours sincerely
