Subject: Bench on Lower Green

Hi Pauline, I live in [redacted].

The email is to ask the question would the parish council be agreeable if we replaced the old metal bench around the large chestnut tree with a modern wooden bench dedicated to the memory of [resident]? The bench would be made specific to fit around the tree. The one in the example looks bigger than is necessary.

Photo of old current metal bench below.

Photo of an example of what we had in mind.

Kind regards
