Subject: Costs of bird boxes etc

Hi Pauline

Here's a list of bird boxes we have just ordered from Nestbox Company. This comes to £491.10 This grant came from Ilmington Community Shop.

We also have a grant of £200 from the Ilmington Show Committee for putting the boxes up.

There are other things we could buy e.g.

Eco Hedgehog houses @ £78.00 per box plus metal plates to sop predators @ £5.70 Plus postage

Eco Bat boxes @ £42 per box plus postage

And, of course, we need a heavy duty strimmer for maintaining to Wldflower Areas @ £200

There amy also be a need to grow good seeding and fruiting plants for birds in the wooded area.

And one possible solution to the problem of how birds and mammals access water in the pond is to create a 'ramp' of stone down the bottom end of the pond. This would work when the water is high as well as at all stages down to when it's almost empty. At the moment accessing the water is very difficult for them all. I don't know how much a load of local stone would cost.

I can' think of anything else at the moment!

Let me know if you need anything else!

Best wishes

Liz
