

Item 8.1 - For Decision

Meeting: Full Council on 30 July 2026

Motion: To consider supporting a petition calling for road safety improvements at the A429 Darlingscote junction following a serious collision in which a resident was injured.

Petitioner:

Sheila Lowe

Petition:

We the undersigned petition the council to erect traffic lights at this dangerous junction where the Darlingscott to Shipston on Stour road crosses the A429.

Justification:

This is notorious accident blackspot which has claimed many lives and caused serious injury to many local people. Over the past 10 years at least 6 major incidents and many more unrecorded. We have one Ilmington resident killed here a couple of years ago and more recent a major accident involving another elderly resident. This route is a major link from Ilmington and surrounding villages to Doctors surgery, Pharmacy and shop at Shipston on Stour. We need action from Highways to deal with this before another person comes to grief at this spot.
